Weather conditions and general fore-  
cast.—The storm central Thursday morn-  
ing in Iowa has moved east-southeast and  
this morning forms a depression which  
covers practically the whole of the eastern  
part of the country, with lowest pres-  
sure in West Virginia and southwest-  
ern Pennsylvania. Separating this de-  
pression from a second disturbance on  
the westward is a ridge of high pressure  
that extends from North Dakota to the  
lower Mississippi valley. The second de-  
pression moved inland from the Pacific  
coast since Thursday morning, covering  
practically the whole of the Rocky moun-  
tain and Plateau region, with an exten-  
sion northward to British Columbia,  
where a barometric reading of 29.14 inches  
was reported this morning.

There have been general rains in Cal-  
ifornia and the Pacific coast country west  
of the Rocky mountains, also in the Ohio  
valley and Tennessee and the south At-  
lantic states. Heavy snow has fallen in  
upper Michigan, where high northwesterly  
winds, and the snow has been general in  
northern Wisconsin, northern Minnesota  
and the northern portion of the lower  
Michigan peninsula.

The temperature has fallen in the Mis-  
sissippi valley north of Tennessee, and in  
the Missouri valley. It is much warmer  
in the northern Rocky mountain region,  
and lower temperatures prevail on the  
Pacific coast.

It will be clear tonight in the  
eastern portion of the middle Atlantic  
states, and fair weather will prevail else-  
where, except on the south Atlantic coast  
and in the lower lake region, where pre-  
cipitation will continue tonight, and in  
the last named Saturday.

Storm warnings are displayed on the  
Atlantic coast at Portland and Eastport,  
and on the Pacific coast from San Diego  
northward.

The following heavy precipitation (in  
inches) has been reported during the past  
twenty-four hours: Los Angeles, 1.70;  
Berkeley, 1.24.

Steamers departing today for European  
ports will have fresh easterly, shifting to  
northerly, winds, with rain to the Grand  
Banks.

**SCOTT'S**  
EMULSION  
is the great flesh producer.  
Thirty years have proved  
its efficiency in throat and  
lung troubles and all wast-  
ing diseases.

Do not try substitutes,  
especially now, when cod  
liver oil is so scarce and  
high. They are mostly all  
adulterated with seal or  
other cheap oils.

Scott's Emulsion is al-  
ways the same. The cod  
liver oil used is absolutely  
pure; all the other ingre-  
dients are also carefully se-  
lected and of the finest  
quality.
